### Composition:

Each capsule contains

|                   |     |    |
|-------------------|-----|----|
| Bioflavonoids     | 100 | mg |
| Ginseng Extract   | 40  | mg |
| Wheat Germ oil    | 200 | mg |
| Safflower oil     | 300 | mg |
| Yeast Concentrate | 200 | mg |
| Royal Jelly       | 90  | mg |

### Properties:

**GR Six** is a novel well balanced blend of natural micro nutrient ingredients. The six active components of **GR Six** are carefully selected so as to provide a balanced combination of well known vitalizing components, represented by Royal Jelly and Ginseng Extract, and components unique to **GR Six** among other biotonics, namely the recently re-discovered essential micro nutrients: the bioflavonoids. All ingredients are purely and completely natural and are absolutely free of any synthetic substances. As such, **GR Six** is a unique and total bioenergizer, biotonic and natural vitalizer for healthy as well as stressed individuals of various age groups and for both sexes.

### Bioflavonoids

Citrus Bioflavonoids, formerly well known for their beneficial effects in decreasing capillary permeability and blood vessels' fragility, are re-emerging after recent scientific researches as important and essential micronutrients. As natural antioxidants they work in harmony with vitamin E as highly efficient free radical neutralizers thus improving fitness and restoring vitality both to normal and oxidatively stressed individuals manifested as protection of the skin and blood vessels, decreased risks of cholesterol lipoprotein peroxidation, shielding against cell damage by extraneous environmental pollution. **GR Six**, with its rich content of purified standardized Bioflavonoids, assures a good daily supply of Bioflavonoids both for healthy and stressed individuals who do not, or cannot, regularly consume adequate amounts of antioxidant-rich fruits and vegetables.

### Ginseng Extract

It is the purified and standardized extract of the roots and rhizomes of the Korean plant Panax Ginseng, and is considered as a natural source of vitality, stimulation and fitness. Its benefits are based on centuries of experience acquired in far-eastern medicine and confirmed by current researches. The active ingredients are now made available by modern technology.

### Wheat Germ Oil

A natural oil and the richest source of vitamin E, the essential nutritional element. Vitamin E is an efficient anti-oxidant, is involved in the normal functions of the gonads, as well as of the nervous and muscular systems, and, it is a recognized free-radical scavenger. By virtue of its rich source of vitamin E, **GR Six** is capable of neutralizing these damaging free radicals guarding against any decrease of the antioxidants below normal levels.

### Safflower oil

A refined natural fixed oil rich in polyunsaturated essential fatty acids. It provides high energy intake and assists in clearing circulating cholesterol in the form of its favorable unsaturated esters. It is used as a dietary supplement and for prophylaxis in hypercholesterolemia

### Yeast Concentrate

Natural yeast is a provider of high quality proteins (more than 45%) in the form of essential amino acids. It is also a rich source of vitamins of the B-Complex group and of essential minerals and trace elements, both are confirmed to be fundamental for most biogenic processes. The yeast enzymes act as natural regulators of many digestive functions.

### Royal Jelly

This Queen Bee Jelly contains a variety of amino acids, lipids, carbohydrates, vitamins, enzymes and many other essential trace components, the administration of which has been shown to restore vitality and improve mental and physical activity for both males and females. The accurately adjusted dose of Royal Jelly in **GR Six** assures the full benefit of this superior energizer without any undesired effects of excessive, un-needed, and more costly higher concentrations.
