

# AUDAX

EAR DROPS  
FOR THE PROMPT  
RELIEF OF PAIN

## Composition :

Each 1 ml contains :

Choline salicylate solution 432 mg

Glycerol 126 mg

## Properties :

The low surface tension of **AUDAX** Ear Drops ensures rapid penetration to the site of action . Choline salicylate exerts quick and prolonged analgesia. The pH of **AUDAX** Ear Drops is adjusted to approximate closely that normally found in the external auditory meatus .

**AUDAX** Ear Drops contain no irritants or sensitising local anesthetics .

**AUDAX** Ear Drops eliminate the need to resort to oral salicylates or other systemic analgesics . In addition , **AUDAX** Ear Drops exert local anti-inflammatory and antipruritus effects in the ear and have their own spectrum of antimicrobial activity .

## Uses :

For prompt relief of pain due to acute or chronic otitis media, acute or chronic otitis externa .

Also for the relief of pruritus ( itching )

and inflammation and of pain due to boils and furuncles in the external auditory canal.

## Dosage and Administration :

Place the head to one side with the affected ear uppermost. Completely fill the ear canal with the ear drops, using the dropper provided.

Insert a cotton wool plug previously soaked in the drops.

Alternatively, if the doctor has inserted a wick , use the drops to keep it moist.

The drops may be instilled every 3 to 4 hours or as required until a permanent relief is obtained . If pain and inflammation persist after 24 hours, consult your doctor

## Contraindications and Warnings :

Salicylate sensitivity.

Where infection of the ear necessitates topical and/or systemic antibiotics, the **AUDAX** Ear Drops are designed as an adjunct therapy .

## Packing :

Bottle containing 10 ml with a dropper

## Storage :

Store in a cool and dry place protected from light .

Keep out of the reach of children.
